

# STAINLESS STEEL LADDER BRACKET

## FEATURES

- ↪ Fabricated from marine grade 316 stainless steel
- ↪ Australian made for Australian conditions
- ↪ Easy install with a Gesipa Rivet Tool
- ↪ Stainless Steel with Identification Number

The Skypro stainless steel ladder bracket permanently fixes and fits to all common tin roof profiles using Gesipa rivets.

Guttering is protected from damage and ladders are locked in place, which can be secured using a strap or lanyard to the fixing points.

## INCLUSIONS

- ↪ Datasheet & Install Diagrams
- ↪ Engineers Certificate of Compliance to AS/NZS 5532
